

CESB 2013 Annual Report

The Certification Program tested 822 candidates, and certified 375 individuals by December 31, 2013. The transition to computer based testing (CBT) created some fear and procrastination for exam candidates, which resulted in slower registration/scheduling than expected. We have implemented several policy and procedure changes, which show promise of rebounding in 2014. CESB 2013 Annual Report

The Certification Board added the Certified Scheduling Technician (CST) certification to its portfolio on July 1, 2013 and officially accepted the 2012 beta-tested Decision & Risk Management Professional (DRMP) certification on September 1, 2013. The CST certification is designed for entry level professionals with at least 4 years of industry experience or a four year degree. The DRMP certification is designed for experienced professionals with at least 8 years of verifiable experience working in the decision and risk management area (4 years can be substituted with a college degree). The Certification Board is pleased to experience continued growth and is looking forward to greater achievement in 2014.
