

2016 Certification Progress Report

The Certification Program transitioned to a new Association Management System (AMS) in the 4th quarter of 2016, which required a temporary shut-down of the certification program. As a result, the total number of examination registrations was affected. We conducted 629 examinations and certified 362 individuals by December 31, 2016. The breakdown of each individual exam is listed in the chart below, along with the number of candidates who were successful in achieving their credentials.

The table listed below depicts the 2016 Certification Program status of activity.
