

2017 Certification Progress Report

The Certification Program conducted 583 examinations and certified 358 individuals by December 31, 2017. The program experienced a system wide malfunction related to Webassessor's examination timer, forcing a suspension of examination delivery from December 15, 2017 through January 17, 2018. The suspension affected 41 scheduled candidates, and 144 cleared, but unscheduled candidates. The issue has been corrected and examination delivery resumed on January 18, 2018.

The table listed below is our Certification Program Report for 2017, as presented to our accreditation body, The Council of Engineering and Scientific Specialty Boards (CESB):
